Job Outlook

“Employment of healthcare occupations is projected to grow 15 percent from now to 2029, much faster than the average for all occupations, adding about 2.4 million new jobs. Healthcare occupations are projected to add more jobs than any of the other occupational groups. This projected growth is mainly due to an aging population, leading to greater demand for healthcare services.”

[Occupational Outlook Handbook](#)

Areas of Employment

- Primarily sterile processing departments
- Hospital operating rooms

CAREER

Formerly called the “Chargeback” Program

Triton College participates in the Comprehensive Agreement Regarding the Expansion of Educational Resources (CAREER), which allows students interested in completing an Associate of Applied Science or certificate program not offered at their home community college to receive in-district tuition at another participating community college. With prior approval, out of district students may enroll in an Applied Science program at Triton College that may not be available through their local community college. Students are encouraged to contact their home community college for approval to enroll in a specified program of study. Upon receipt of this approval, Triton College will assess them at the in-district rate.
